Professional Summary

Software Engineer specializing in full-stack and AI-powered applications using Next.js, React, Node.js, TypeScript, PostgreSQL, MongoDB, and MERN. Experienced in building production applications, REST APIs, AI integrations, authentication, payment systems, third-party services, and VPS deployments. Strong focus on clean architecture, maintainable code, and delivering reliable, maintainable, and production ready applications.

EDUCATION

University of Engineering and Technology (UET), Lahore

BS Computer Science | 2022-2026

EXPERIENCE

Xavinex - Associate Software Engineer

Feb 2026 – Present | Next.js · MERN · AI

- Developed and delivered **5+ AI-powered web applications** from development to production.
- Implemented **AI workflows, REST APIs, authentication, and third-party integrations**, translating client requirements into production-ready features.
- Integrated **Stripe and PayPal payment systems**, including payment flows and backend integrations.
- Built automation and data-processing workflows using **Apify, Airtable, and Make.com**, including web scraping and automated processing.
- Managed **production deployments on VPS servers** and worked directly with clients to understand requirements, design solutions, and deliver products from development to production.

Creamerz Soft - Frontend Developer

June 2025 – Jan 2026 | Angular + Laravel

- Delivered **5+ production web applications** using Angular
- Developed dynamic, responsive UI components and integrated REST APIs, improving usability and client-side performance
- Collaborated with clients and backend developers to translate business requirements into maintainable production features.

Faizan-e-Chisht Foundation - Web Development Intern

Jan 2025 | Next.js + MERN

- Developed responsive portfolio websites using **Next.js and MERN**, while gaining hands-on experience with reusable components, Git, and deployment workflows.

PERSONAL PROJECTS

AI Financify - Next.js · Node.js · PostgreSQL · AI

- Built an open-source finance platform for managing income, expenses, budgets, and multi-account transactions with **AI-powered receipt scanning**.

ClothEase - MERN Stack (MongoDB, Express.js, React.js, Node.js)

- Built a full-stack clothing eCommerce platform with product browsing, cart management, and checkout functionality.

ChatEase - React · Node.js · WebSockets

- Built a real-time messaging platform with instant messaging and file sharing using **WebSocket-based communication**.

SKILLS

Languages: JavaScript, TypeScript, SQL

Frontend: React.js, Next.js, Angular

Backend: Node.js, Express.js, REST APIs

Databases: PostgreSQL, MongoDB, Supabase

AI & APIs: Generative AI APIs, AI Application Development, Prompt Engineering, Third-Party API Integration

Tools & DevOps: Git, GitHub, Postman, Stripe, Paypal, PM2, Nginx

Languages

English **Proficiency Level:** C1

Urdu **Proficiency Level:** C1
